

Sock and Underwear Drive!

Socks and underwear are vital to the health and wellbeing of people experiencing homelessness, so we go through them fast at Hope Mission and are always in need of these items for both men and women in all sizes. As they spend the majority of their days on foot and don't always have proper fitting footwear, our vulnerable neighbours often have blisters and sores. Having clean socks can help sores heal and prevent infection. They are also important for both wet and cold weather to keep those toes warm and dry. Thank you for partnering with us to keep our community healthy and safe!
